Lamb and General Walker Said to Be Oppoxed to McKinley for Fresident-Confederate

WASHINGTON, D. C., April 2,-(Spe cial.)-Virginia politicians here, who are ever on the alert for party news, are looking forward with great interest to the result of the Republican district conventions, the first of which is being held to-day at Bristol, Va. Republicans here, who view their party situation in Virginia from somewhat of an independent standdo not begin to admit that Me Kinley has swept the State, as some of al leaders claim. They say that while the countles are apparently for the Ohioan, it will be quite a different matter when the districts chose, or indicate nt them at St. Louis, and peros at Staunton, too. Nearly all of the resident Republican Virginians here take it for granted that Colonel Lamb and General James A. Walker are not for Mc-

it for granted that Colonel Lamb and General James A. Walker are not for McKinley. They believe that these two leaders are for some other man, if not Reed, then Allison, Cullom, or may be Ben. Harrison. General Walker is now at Bristol, attending the meeting of the convention there, and it is predicted here that whatever way his influence and that of Colonel Lamb is thrown will shape the character and preference of the Virginia delegation to St. Louis.

It is, therefore, they say, worth while to navait the result of the district conventions, and then it may be seen how many clegates will be instructed and appreciation. Delegates were then elected to the United Confederate Association of the South, to meet at Richmond on the 35th of June next. They are as follows: R. Byrd Lewis, R. W. Hunter, J. M. This order includes about thirty persons, whose salaries range from £,000 to \$2,760 per sonnum. tary Herbert at Old Point.

Washington to-night for Fort Monroe, Va., to spend about a week there. His object in visiting Fort Monroe at this time is to inspect the North Atlantic squadron, which has been held there gince December last. During the Secretary's stay the squadron will go outside the Virginia capes for two or three days of exercises at see, and Mr. Herbert will have an opportunity of seeing what the officers and men of the squadron have learned since he accompanied them on their cruise last year. The battleship Indiana, now in dry-dock at Port Royal, S. C., is expected to reach Hampton Roads on Thurnday next, and she will be immediately attached to the squadron. No further augmentation is possible at this time.

It is the intention of the Navy Department to make the squadron permanent, and during the coming summer a programme of evolutions will be executed along the American coast. The causes which operated to keep the squadron intact are apparently still alive.

## Cloth-Mill Shut Down.

LOWELL, MASS., April 3.—The No. 5 mill of the manufacturing corporation has been shut in conformity with the decision of the directors to discontinue manufacturing cloth. Other portions of the cloth plant will be closed as fast as the stock in process is finished. The change in policy will throw our something less than half of the 5,000 operatives. Most of them are French-Canadians, whose labor, as compared with that of operatives engaged on fine work in other mills, is relatively unskilled. Many of those people return to Canada every spring to stay through the summer, and the only change to them will be that they go this year a little earlier than usual, and find some other place to work in the fail. It is said, however, that some of them would like to go South, where work of a grade to which they are accustomed is carried on.

## Czar Reed Reverses a Former Ruling of

THE QUESTION OF A QUORUM.

Not in Session.

Is Called to Order-Discussion on the Cuban Resolutions-The Senate

WASHINGTON, April 3.-The House entered to-day upon the consideration of the report of the conference committee mending the adoption of the Senate resolutions relating to Cuba, which Mr. Hitt (Republican), of Illinois, chairman of the Committee on Foreign Affairs, has been endeavoring to bring to the attention of the House for some time, Mr. Hitt was desirous of securing action on the report to-day, but the House resof the discussion, and it went over till to-morrow.

by Mr. Hitt in a speech in favor of agreeing to the report, and by Mr. Boutelle (Republican), of Maine, who opposed the passage of the resolution.

Before the Cuban matter came up the House passed thirty-eight private pension which had been favorably acted upon at previous Friday night sessions. In the course of this part of the pro-In the course of this part of the pro-ceedings Speaker Reed reversed his fa-mous ruling in the Fifty-first Con-gress, which has been the subject of much controversy, and declared that a majority of the actual membership of the House constituted a quorum. In the Fifty-first Congress he held that it re-quired a majority of all the members elected to the House to make a quorum, irrespective of the vacancies.

irrespective of the vacancies.

Mr. Hooper, of New York, reported the river and harbor appropriation bill for the year ending June 39, 1897, which will be called up Monday.

A bill was passed authorizing the construction of a bridge across the Mississippi river at St. Louis.

At 5:10 the House took a recess until 8 o'clock, the evening session to be for the consideration of private pension bills. The question of quorum came up on the first pension bill taken up. When it was recommended Mr. Pickler moved the previous question.

it was recommended Mr. Pickler moved the previous question. Mr. Erdman (Democrat), of Pennsyl-

vania, made the point of no quorum on the vote—127 to 6.
A quorum was counted and the previous question was ordered.
On the passage of the bill, Mr. Erdman demanded a vote by yeas and nays, but only 22 members joined him in the request—an insufficient number.
So the bill was passed.
On the next bill Mr. Erdman again made the point of no quorum, but the Speaker said: "The Chair overrules the objection, stating to the House that evidently a quorum is present."
The announcement was received with applause, and the passage of the remaining bills on the calendar proceeded without serious delay or interruption.
Upon another vote Mr. Erdman again made the point of no quorum, and the Speaker, after counting, said: "There are 118 present—a quorum."

SPEAKER REED CHANGES BASE.

This was a reversal of his famous de-cision in the Fifty-first Congress, about which there has been much controversy, and which was followed in later Conand which was followed in later Con-gresses. The entire number of represen-tatives in a full House would be 251, of which 179 would be a majority; but there are two vacancies—Mr. Crain, of the Eleventh Texas District, and Mr. Boatner, of the Fifth Louisiana—leaving the actual membership, 355, of which 178 is a ma-

In the expression of views which the In the expression or views which the Speaker made, as published in the Record at the end of that Congress, he adopted the practice of several bodies—notably that of the Senate, under the lead of the late Reverdy Johnson, whose reputation as a lawyer had always stood high—and stated his belief, which was his present, that 164 members, and reputation as a lawyer had always stood high—and stated his belief, which was his present, that 164 members, and not 166, constituted a quorum of the House; in other words, a majority of the actual membership. The decision referred to by the gentleman from Tennessee, said the Speaker, was one against himself and his side of the House. Mr. Richardson assured the Speaker that he had no criticism to make of the present ruling; it was only because of its reversing the former ruling that he had called attention to it.

Before the bills were disposed of Mr. Talbert (Democrat) was heard from Rising to a parliamentary inquiry, the South Carolina Representative asked if under the existing conditions—
The Speaker: The gentleman will confine himself to the parliamentary inquiry.

Mr. Talbert: I will try to do so, but was just laying down my premise.

The Speaker: The Chair will answer a parliamentary inquiry, but not a premise.

a parliamentary inquiry, premise.

Mr. Talbert: Will it not be in order to ask to lay aside a bill on the ground that it is an outrage?

The Speaker: It will not.

Mr. Talbert was continuing to denounce some of the bills, but the Speaker sharply rapped him to order, and sternly notified him to take his seat when declared to be out of order.

Upon the passage of the pending bill, Mr. Talbert asked if it was in order to move to amend the title.

It was, and he moved that it be made to read:

It was, and he moved that it be lands to read:

"A bill not to pension Mollie Crandall."

"Can I be heard on that motion, Mr. Speaker?" he asked.

Not under the rules of the House, was the response. (Laughter).

The amendment was rejected.

Mr. Erdman (Democrat), of Pennsylvania, succeeded in heading off one bill by demanding an engrossed copy. It could not be furnished, of course, and had to be laid aside.

THE CUBAN RESOLUTIONS.

THE CUBAN RESOLUTIONS.

Thirty-eight bills were passed in an hour and a half, and then at 2:20 o'clock Mr. Hitt called up the report of the conference committee on the Cuban resolutions, the report recommending the adoption of the following resolution as passed by the Senate:

"Resolved. That in the opinion of Congress, public war exists between the Government of Spain and the government proclaimed, and for some time maintained by force of arms by the people of Cuba; and that the United States of America should maintain a strict neutrality between the contending powers, giving to all rights of belligerents in the ports and territory of the United States. In the further recommended that the friendly offices of the United States should be offered to the Spanish Government for the recognition of the independence of Cuba.

## TEXAS STEERS WON

The Texas Steers, Ted. Sullivan's agregation of ball-players, who have been uffering defeat everywhere they have

asked what proportion of the 1,600,000 population in Cuba had engaged in the movement to secure the independence of the Island. Mr. Hitt stated that a communication to the House from the Secretary of State showed the number of troops in field last August was 20,000, one third of which was well armed. Since coming to the House to-day Mr. Hitt said he had been handed a statement by Mr. Rappleye, the correspondent of the New York Mail and Express, who had just returnd from Cuba, showing that the Cuban army now numbered over 60,000 men.

Mr. Patterson then inquired what number of Cubans had enlisted in the Spanish army, which Mr. Hitt said he could not answer with definiteness.

Mr. Patterson said the thought he had was that if the people of Cuba were in substantial unanimity in the desire for autonomy and independence, they ought to have it, and that Spain should not be permitted to hold the territory of such people by sublugation. (Applause.) Mr. Hitt spoke a few minutes more than an hour, and at the close of his remarks was warmly applauded.

Mr. Hyde (Republican) of Washington, asked Mr. Hitt to state if the President should not take any action upon the resolution, whether or not they should be entirely nugatory, except merely as an expression of sentiment.

Mr. Hitt replied that he could not recognize the possibility of such a condition of affairs, and therefore denied the proposition.

Mr. Boutelle said when the proposition easily have flows away beyond pursuit and perched upon the topmost pinna of victory.

tion of affairs, and therefore denied the proposition.

Mr. Boutelle said when the proposition was first before the House he opposed the hurried and inconsiderate action then proposed. He did not suppose then that he was the only member who opposed such hasty action. The press of the country had given him a wide prominence in what it termed "arresting the action of the Cuban resolution." He did not complain of that prominence then, and did not now. For, if any vindication of his position was needed, it was furnished by the appearance of these resolutions in the House more than a month later for further consideration. That demonstrated that somebody, somewhere, had been of the opinion that a question of this importance should not be voted upon and passed while members of the House were hurrying out of the hall, hatted and coated, to their belated dinners.

At the night session there was a quorum would ultimately achieve a victory,

A Novel Post-office.

KNOXVILLE, TENN., April 3.—South Pittsburg, with 3,500 people, is without post-office facilities, owing to the pique of J. J. Ingle, who, it is charged, was dismissed for incompetency. Peter Bradshaw, the new Cleveland appointee, took charge of the office April 1st, and is now distributing mail from over the tops of several big dry-goods boxes. The oud fixtures, consisting of an elegant outfit of lock-boxes, desks, tables, and safe, were the personal property of the retired post-master. He refused to rent them to his successor at any price. Considerable feeling has been expressed over the action of Ingle, which is condemned in strong terms by the business-men of South Pittsburg.

Sullivan's Steers will go up against Richmond again this afternoon, and the game will be for blood. The Blueblris are all pretty sore over their defeat, but they have no one to blame for it but themselves. They had a lead-pipe clinch on the game, and if they had kept their eye on the ball, as they should have done, they would have been easy victors. They were a bit careless, and made the grievous mistake of counting their chickens before they were hatched. They will hardly make that mistake again, though, and if they don't win to-day they will know the reason why.

Ted Sullivan dropped in the Dispatch office last night, and he was in his most felicitous mood. He has some very amusing, if not cuphonious, nicknames for his pets, and he believes in jollying them along at all times. Macke, his Indian pitcher, he calls Wolf-Eating-Bear, and Garvin, the other twirler, who officiated yesterday, he has named Bullet-Proof-Ned. The latter, he says, has killed \$5.000,000 men in a legitimate sort of a fashion, but he doesn't consider him very feroclous.

Ted tells of a very interesting game which was played in Texas by his Steers last season. He says his men were on the eve of victory, and had two of the opposing team out in the ninth inning with the bases full. A high fly was knocked up in the infield, and the short-stop was unable to hold it, and the men on the bases full down so that the short-stow was unable to hold it, and the men on the bases scored, losing the game for Ted's aggregation.

Ted is dead sore over his treatment in Norfolk. He says he has a warm spot in his heart for Virginia, but he doesn't consider that Norfolk has a place on the map. He will put Wolf-Eating-Bear in the box to-day, and says the Indian will give an exhibition of the most wonderful speed ever attained in ball toesing.

Bweeney was indisposed yesterday, and was suffering from a sore unkle. He hopes to be all right to-day.

Jimmy Gilman will cover second base to-day

### PRINCETON AND 'VARSITY.

UNIVERSITY OF VIRGINIA, April & winning by 5 to 4. A terrific gale was blowing, making anything like accurate batting and pitching almost an impossibility. The Virginias opened up the rungetting, when with two out, McGuira singled sharply to left, went to third on a passed ball, and came home on Hunt's single. In the third McKim struck out, but Titus failed to catch the third one, and he made second base. Before he got back to it Kincheloe sacrificed him to third, and Carnett's single scored the runner.

In the eighth Kincheloe singled and Garnett nut the ball out of the lot. In Princeton's half McGuire's arm gave out and was hurting him greatly, but he stuck to Bradley at Titus, both getting home runs, which, gether with a base on balls and an error, netted four runs. They made but four hits off of McGuire and four errors. Virginia got five hits and four errors. McGuire struck out eight men, Easton four, and Wilson one. The Virginias played in hard luck, as their pitcher's arm gave out just when it was most needed.

CLOSELY CONTESTED.

The game was one of the most closely GAVE OUT.

The game was one of the most closely contested and exciting that has ever been

ontested and exciting that has ever been seed here.

The Boston and Lehigh teams were out in full force, and wanted to see the southern Tigers do up their Northern cousins. Yale came in this afternoon for her game to-morrow, and not counting the home team, there are four baseball clubs in Charlottesville to-night. The Princetons are highly elated over this victory, as they consider they have defeated the strongest college team in the South.

### Fifth Annual Convention-Lung-Splitting Yells-Resolution ..

CHICAGO, April 3.—Steinway Hall re-CHICAGO, April 3.—Steinway Hall resounded with the class-yells of a dozen widely scattered institutions of learning while the delegates were gathering this morning for the fifth annual convention of the American Republican College League, about 100 strong. The visitors marched in straggling detuchments from their headquarters, at the Auditorium Hotel, to the meeting-piace, now and again electricying the people on the streets with lung-splitting whoops and "rahs." At 10 o'clock, wifn the convention was called to order, the ground floor of the hall was comfortably filled with enthusiastic young freshmen, undergraduates, and seniors, while there was quite a smattering of professional and business young men who have graduated during the past four or five wars from one or another of the instrutions represented.

Prominent amongst those on the stage were J. H. Fry, of Princeton; S. B. Whitney, Williamstown, Mass.; J. B. Fauber, Oberlin, O.; S. A. Perkins, Tacoma; E. H. Fitch, Jr., Cornell; James J. Sheridan, Yale; F. T. Pierson, Syracuse; G. W. Hensey, Georgetown; A. P. Tomkins, R. A. Kilbourne, Wisconsin; A. W. Martin, Nebrazka; C. M. Barnes, Mississippl; E. J. Hemming, Columbia, and F. G. Ingraham, Ann Arbor.

Retiring-President I. Brent Vaughan, of the University of Chicago, called the gathering to order, and after an address of welcome by A. H. Revell in behalf of the local Republicans, the chairman delivered his annual address, congratulating his hearers on the growth of the league during the past year, and insisting that the time had arrived when it would be a factor in the Republican politics of the nation.

Pending a report from the Committee on Credentials brief addresses were made

CHICAGO, April 3.—The delegates to
the fifth annual convention of the American Republican College League began
and concluded the business that brought
them to Chicago in two sessions to-day.
The next convention will be held in Minneapolis. James Harvard Perkins, of
Harvard Law School (senior class of 1896),
was, after a warm contest, selected as
president of the league for the coming
year. The resolutions contained no endorsement of any particular candidate for
the presidential nomination.

## Alleged Filtbusterers Arreste Alleged Filthusterers Arrested. EL PASO, TEX., April 2.—Senors Lauro Aguerre and Flores Chapa, editors of El Independente, a Mexican newspaper published here, and Richard Johnson, the printer of the paper, were arrested yesterday on a warrant from Solomonwille, Ariz, charging them with a violation of the neutrality laws of this country by instigating the organization of a military excedition into Mexico. Last week Aguerre and Chapa were tried here before a United States commissioner on the same charge, and were discharged from custody.

River and Harbor Bill.

WASHINGTON, April 5.—The total appropriation carried in the bill is \$5,87,890. The estimates of the chief engineers were, in round numbers, \$12,000,000. The last Congress appropriated \$11,580,880 for rivers and harbors, or about \$1,780,000 more than carried in the present bill. In addition to the cash appropriation which will be available at the close of this fiscal year, contracts are authorized in the bill for an amount in addition aggregating \$51,000,000.

Murderers Sighted.

ATLANTA, GA., April 3.—The Delks, who fled from Pike county last night after killing Sheriff Gwynn, were seen to-day near Senoa, Coweta county. It was reported that they had been surrounded in a house there, and would be captured, shot, or burned, but they have, not been surrounded. They are out in the woods or in the swamps. There are three of them in the party. All are heavily armed. The pursuers number 200.
